The Wonder and Excitement of “Ranch Days”

This past year and a half, amidst COVID protocol, we pivoted. Saturdays (12-3) and Mondays (July 5, 9-4) became “Ranch Days”. Combining our takeaways from the December, 2019 Soil Health and Grazing Conference; our own farm experiences and two professional teachers, we built year round programs to integrate children back in to nature. “Ranch Days” aim to educate the abilities and

possibilities of Regenerative Agriculture through soil carbon sequestration, polyculture, and sustainable practices regarding animal and pasture/crop management. Follow us on Instagram @16handsstables to learn more about our farming practices and our programming available. A package of 6 Saturday (12-3) sessions costs \$378* and a package of 4 Monday sessions (9-4) costs \$490*. Register for any of our individual or corporate programs by contacting Kelsey at (780) 974-1843 or kelsey.macmillanjones@gmail.com.
